When you create a beautiful character, you want eyes to match that beauty. Eyes that are soft; that have depth and color range. Eyes that have the quality of life and complement your creation. Eyes that sparkle with reality.

We offer you first grade acrylic eyes. Not production made; but custom crafted under the highest quality standards. Handcrafted, from the very finest raw materials to the individually hand-painted matched pairs. Our eyes are produced by artisans with over 40 years experience in fabrication of acrylic artificial eyes for humans. You are assured of superb craftsmanship in design and construction.

Our handcrafted acrylic eyes have the soft, natural look of human eyes and are far superior to conventional glass eyes. Available with an unlimited range of iris colors, our eyes offer the advantages of being exceptionally durable, structured to fit and large size availability.

We are proud of these exceptional eyes. Designed with the same quality craftsmanship and high grade materials as human artificial eyes with the accurate visual look of the natural eye. Special scleral colors and blood vessels are also available.

Our artificial eye is a 28 mm diameter spherical shape and may be ordered from the following Iris Color List in 12 and 15 mm iris sizes. Scleral washes and blood vessels are available upon request.
